

Bring your property & garden to life with our Aquatic landscaping expertise!

Our Vision

To create your dream, the perfect landscape, where you and your families can relax, truly enjoy & entertain in the peace and tranquility of your outdoor setting.

Our Services

For over 20 years Richard at Blakewell has helped our customers design and construct their dream garden pond or lake both large and small. Even if you already have an established water feature, we can help you if you require enhanced landscaping & design or on-going

maintenance; We can support and supply essential products to keep the water, plants and fish healthy and full of life.

As a specialist Aquatic Landscapers Richard advocates a collaborative partnership with our customers to design an aquatic landscape that provides visual appeal and personal satisfaction, increasing the value and pleasure you experience in your home.

Our team will focus on a creation that extends your home, garden and surroundings, which complements the existing architecture and natural environment.

'Blakewell's knowledgeable staff were able to design, plan and install a delightful pond with great finesse and understanding for the environment we wanted to create.'

Working collaboratively – Richard believes the vision should start with the homeowner. We have the skills, creativity and innovation to fulfill your dream. Also, to provide the bespoke design and

installation package with a reliable and quality service, to give the homeowner confidence in their project. Timeless and attractive design drives everything that we do. Not only does this create simple elegance, but it adds value and depth to your home that will appreciate over time. We view every job as an opportunity and appreciate we are only as good as our last job and client, whom we value above all!
